dnd® è ricerca ed evoluzione.
Sperimentazione sempre
rivolta al futuro
che si rivolge al design
nel suo significato
più puro per ottenere
una perfetta sintesi tra
funzionalità ed estetica.

dnd® is research and evolution.
Experimentation always
focused on the future
which caters to the design
in its pure meaning
to get a perfect synthesis between
funcionallity and aesthetics.

THE COMPANY.

Martinelli nasce nel 1968 a Nozza in Valle Sabbia, in provincia di Brescia. Fondatore, insieme ai suoi fratelli, è Angelo Martinelli, artigiano che riesce a coniugare sin dai primi anni di attività innovazione ed alta qualità dei prodotti. L'azienda affonda le sue radici nei valori storici dell'artigianato e della zona in cui nasce, che diventeranno presto una vera e propria mission: amore per il lavoro, per la produzione e attenzione alla qualità. Attualmente sono gli eredi di Angelo Martinelli, Vilma, Lorena, Rosaria ed Edoardo, i responsabili della conduzione dell'azienda, trasferitasi nella moderna sede di Casto. Il core business dell'azienda è da sempre la produzione di maniglie, pomoli, maniglioni e battenti per porte e finestre, supportata da una conoscenza consolidata dei processi di lavorazione e trasformazione dell'ottone. Martinelli Spa non solo offre prodotti di alta qualità, ma da sempre si è impegnata nella ricerca di prodotti in grado di soddisfare molteplici gusti. L'amore per le linee classiche, senza tempo, non ha impedito a Martinelli di analizzare i nuovi trend del mondo dell'arredamento. Proprio per rispondere alle esigenze di un mercato in continua evoluzione, nasce nel 1998 dnd by Martinelli, destinata a diventare fucina di idee originate dalla collaborazione con importanti designer.

The Martinelli company was established in 1968 in Nozza, Valle Sabbia, province of Brescia, in the North of Italy. The company was founded by Angelo Martinelli, together with his brothers. He was capable of combining, since the very beginning, innovation and high quality products. The roots of the company are embedded in the historic craftsmanship values and in the values of its region, which soon became a real mission: commitment to hard work, commitment to manufacturing and attention to quality. The organisation, now it is located in Casto, is currently run by the Angelo Martinelli's family: Vilma, Lorena, Rosaria and Edoardo. The core business has always been the manufacturing of door handles, door knobs, pull handles, knockers for doors and windows, and is supported by a consolidated thorough knowledge of the brass manufacturing and transformation processes. Martinelli Spa is not only capable of offering high quality products, but has also been constantly committed to the researching of 3 new products capable of satisfying all tastes. The love for classic, timeless lines, has not prevented Martinelli from observing the new trends of the interior design world. And dnd by Martinelli, was in fact established in 1998, in order to satisfy the needs of the continuously evolving design sector. This internal division soon became the centre for the development of new ideas, originating from the collaboration with renowned designers.

NEW NOVITÀ

CERTIFICATO DI RESISTENZA AL FUOCO
FIRE RESISTANCE CERTIFICATE

UNI EN 1634-2 Ed. 2009

Test di resistenza al fuoco e al fumo per porte, finestre, serrature e componenti di ferramenta da costruzione.

I prodotti possono essere utilizzati solo per installazioni su porte e finestre che hanno ottenuto la certificazione EN 1634-1 e che hanno dimostrato di possedere la medesima resistenza al fuoco.

Fire resistance and smoke control tests for door, shutter and openable window assemblies and elements of building hardware.

The products can only be used for installation on doors and openable windows of similar type that had been tested according to EN 1634-1, and have been shown to have at last the same fire resistance.

NEW NOVITÀ

Rosette ovali e rettangolari
per porte-finestre

*Oval and rectangular
roses for french doors*

Nuove rosette rettangolari per DK.
versione da 4 e da 8 scatti.

*New rectangular roses for DK system.
version for 4 and 8 stops.*

SISTEMA 52 52 SYSTEM

52 52

SISTEMA 45 45 SYSTEM

45 45

Sistema fornito con kit di viti speciali con tecnologia Panelvit FR frenante, che consente un fissaggio al pannello altamente performante evitando lo spannamento del materiale.

Le rosette possiedono una sede guida centrale con fori di interasse 38 mm che tramite un fissaggio regolare assicurano le maniglie in posizione corretta e le azioni di apertura / chiusura fisse e sicure.

Le maniglie vengono fissate con un grano M6 con punta cilindrica fornito con tecnologia ESLOCK autofrenante che elimina i rischi di svitamento.

Sistema brevettato dnd by Martinelli, testato in azienda e completamente realizzato in Italia.

System supplied with a special kit of screws PANELVIT FR braking technology, allowing attachment to the panel that avoiding the degradation of the material with high performance.

The roses have a home with central guide hole spacing of 38 mm by means of a fixing adjust the handles ensure the correct position and actions of opening / closing fixed and secure.

The handles are attached with a cylindrical grain M6 tip provided with ESLOCK brake technology that eliminates the risk of loosening.

System patented dnd by Martinelli, tested in the company and completely made in Italy.

SISTEMA VIS
VIS SYSTEM

Le maniglie standard dnd® vengono assemblate su rosette di diametro 50mm e spessore ribassato a 7 mm con molla interna caricata lato destro e lato sinistro. Tutti i componenti interni ed esterni sono realizzati in Nylon® PA6 (con 30% fibre di vetro); Questo materiale offre un’alta capacità di carico in condizioni statiche e dinamiche, resiste bene alle sollecitazioni meccaniche come la flessione e la trazione, assicurando una buona malleabilità e una grande resistenza all’usura e all’attrito. Sistema fornito con kit di viti speciali con tecnologia Panelvit FR frenante, consentono un fissaggio al pannello altamente performante evitando lo spanamento del materiale. Le rosette possiedono una sede-guida centrale speciale e anche fori di interasse 38mm per il sistema a connessione (su richiesta), che tramite un fissaggio regolare, assicurano le maniglie in posizione corretta e le azioni di apertura/chiusura fisse e sicure. Il corretto posizionamento dell’anello in ottone, fissato a pressione, viene garantito da due speciali riferimenti posti in basso sul retro e in prossimità della sede centrale. Sistema brevettato dnd by Martinelli testato in azienda e completamente made in Italy.

The standard dnd® door handles are assembled on 50mm diameter x 7mm thick roses, equipped with internal right and left hand spring system. All the internal and external components of the spring system are constructed using Nylon® PA6 (containing 30% Fibre glass). Even in conditions of high usage this material offers a excellent load capacity and is very resistant to flexible and tensile mechanical stresses, ensuring high resistance to wear and friction. Special wood screws featuring Panelvit FR technology are provided, which allow prevention against thread stripping. The spring system has a central spindle guide, this is to assist the fitting process and to ensure the lever handles are located in the correct position. The dnd handles on 50mm roses are supplied with wooden screws as standard (Bolt through fixing screws are available on request). To ensure correct fixing of the brass cover-rose, secure by a using the reference lip at the bottom of the spring system and push on. This item is a patented dnd by Martinelli product, designed, constructed and tested within our plant in Italy.

FINITURE GARANTITE - GUARANTEED FINISHES

MARTINELLI WARRANTY

La garanzia triennale viene data su finiture galvaniche che grazie alla particolare deposizione di composti metallici, assicura elevate performance di durata rispetto alle sollecitazioni a cui è sottoposta.

Le finiture in garanzia sono:

OLV - OS - La verniciatura delle superfici avviene tramite un processo di elettrolisi. Grazie a questo sistema si ottiene una resistenza quattro volte più efficace rispetto a quella delle verniciature tradizionali. Finiture fornite solo su specifici modelli.

ZC3Q7 - cromo semiopaco.

ZN3Q7 - nickel semiopaco.

OC - Ottone cromo lucido - ottone brillante con applicazione di cromo.

OCS - Ottone cromo satinato - ottone satinato con applicazione di cromo.

ZC - Zama cromo lucido - zama con applicazione di cromo.

ZCS - Zama cromo satinato - zama con applicazione di cromo.

The three year warranty is given on the galvanized finishes that due to the specific depositing metal composites, the finish assure high performances under the various stresses the product surface is subject.

The guaranteed finishes are:

OLV - OS - On all products the surface is coating is applied by means of an electrophoretic process. This process gives the products a good resistance, fourfold effective in comparison with the traditional surface coatings. Finishes supplied only for specific products.

ZC3Q7 - semiopaque chrome plating.

ZN3Q7 - semiopaque nickel plating.

OC - bright brass with chrome plating.

OCS - satin brass with chrome plating.

ZC - Chrome & SatinChrome - bright and satin brass with chrome plating.

ZCS - Chrome & SatinChrome - bright and satin brass with chrome plating.

POWERCHROME

Il rivestimento galvanico effettuato sui nostri prodotti, denominato

Power Chrome è garantito 10 anni.

Grazie alla particolare deposizione di composti metallici la finitura assicura elevate performance di durata rispetto alle sollecitazioni a cui è sottoposta.

Il rivestimento testato in nebbia salina in base alle norme ISO 9227 ASTMB117 DIN 50021 ha superato le 1000 ore di resistenza. Garantito 10 anni (in normali condizioni di utilizzo).

Le finiture in Power Chrome sono:

OC Power Cromo - ottone brillante con applicazione di cromo.

PCS Power Cromo Satinato - ottone satinato con applicazione di cromo.

CCS Power Cromo-Cromosat - ottone brillante e satinato con applicazione di cromo.

The galvanic plating on the surface of our products known as Power Chrome is guaranteed 10 years.

By the specific depositing metal composites, the finish assure high performances under the various stresses the product surface is subject. The finish exceeded 1000 hours in the salt fog resistance test in accordance with the ISO 9227 ASTMB117 DIN 50021 specifications.

The Power Chrome's finishes are:

OC Power Chrome - bright brass with chrome plating.

PCS Power Satin Chrome - satin brass with chrome plating.

CCS Chrome & Power SatinChrome - bright and satin brass with chrome plating.

STAINLESS BRASS®

C3Q7 - cromo semiopaco.

N3Q7 - nickel semiopaco.

PVD - PVD INOX.

Rivestimento metallico sottovuoto denominato **PVD** (Physical Vapor Deposition).

Inossidabile, antigraffio, e antiusura.

Mantiene inalterato nel tempo il colore di origine.

Il rivestimento testato in nebbia salina in base alle norme ISO 9227 ASTMB117 DIN 50021 ha superato le 1500 ore di resistenza. Garantito 20 anni (in normali condizioni di utilizzo).

Per la pulizia di questo rivestimento consigliamo di utilizzare un panno morbido inumidito con alcool.

C3Q7 - semiopaque chrome plating.

N3Q7 - semiopaque nickel plating.

PVD - PVD INOX.

Metallic coating named **PVD** (Physical Vapor Deposition).

Inoxidable, scratch-resistant and wearproof, PVD maintains the original colour unchanged over the time.

PVD coating exceeded 1500 hours in the salt fog resistance test in accordance with the ISO 9227 ASTMB117 DIN 50021 specifications.

PVD is guaranteed for 20 years (for normal use conditions).

When cleaning this coating we suggest to use a soft cloth moisted with alcohol only.

240, 1000, 1500 ore per GARANTIRE LE FINITURE. GUARANTEED FINISHES.

Available on request the tests certificates.

Il test in nebbia salina è il più critico tra quelli che realizziamo sui nostri prodotti.

80 ore in nebbia salina corrispondono ad un anno in normali condizioni di utilizzo.

Grazie agli alti standard dei nostri prodotti, la selezione dei migliori materiali e l'esperienza maturata in 45 anni di attività, oggi siamo in grado di garantire le finiture dei nostri prodotti, garanzie che si traducono in importanti benefici per chiunque installi i nostri prodotti nella propria vita.

The corrosion test in salt spray is the most critical test of those we have done on our products.

80 hours in salt spray correspond to 1 year use in normal use condition.

Thanks to the high level of our products, the selection of top quality materials, and the experience of 45 years of activity, we are able to ensure the finish of our handles, guarantee which translates into important benefits for anyone who chooses to install our products in their own lives.

di lucentezza e morbidezza.

*A thick chrome plating process
that enriches gloss and smoothness.*

FINITURE - FINISHES

AF & FAN

Finiture anticate, ottenute grazie a particolari processi d'invecchiamento dell'ottone.

Antiqued finishes, obtained thanks to the particular aging process brass.

OGC

Ottone bronzato, con graffiatura manuale, verniciato effetto brillante.

Bronzed Brass with manual scratching, lacquered brilliant effect.

OS

Colore naturale dell'ottone satinato.

The natural colour of brass in satin finish.

FINITURE - FINISHES

OGH

Ottone bronzato e graffiato con verniciatura opaca. L'unicità di un materiale come l'ottone rende possibile una realizzazione così ricercata.

Bronzed brass and scratched with matt laquer. The uniqueness of a material like brass makes this finish so refined.

OGS

Finitura lievemente satinata, scurita tramite processo galvanico, impreziosita da una particolare verniciatura opacizzante.

Light satin finish, darkened by galvanic process, enhanced by a matt lacquering process.

FINITURE - FINISHES

EXTREME

Finiture artigianali realizzate dalle mani più esperte con i migliori materiali. Pelle, porcellana, e legno per la massima espressione del design.

Most experienced craft hand-made finishes with the best materials. Leather, porcelain and wood for maximum expression of design.

Verniciatura su ottone:
bianco, nero, rosso, giallo.

*Powder coating on brass:
white, black, red, yellow.*

COLOURS

FINITURE - FINISHES

OLV

Il colore naturale dell'ottone è reso brillante tramite spazzolatura.

The natural colour of brass is made bright by the polishing operation.

BSS

Bronzatura sfumata con vernice opaca.

Dark shaded bronze matt lacquered.

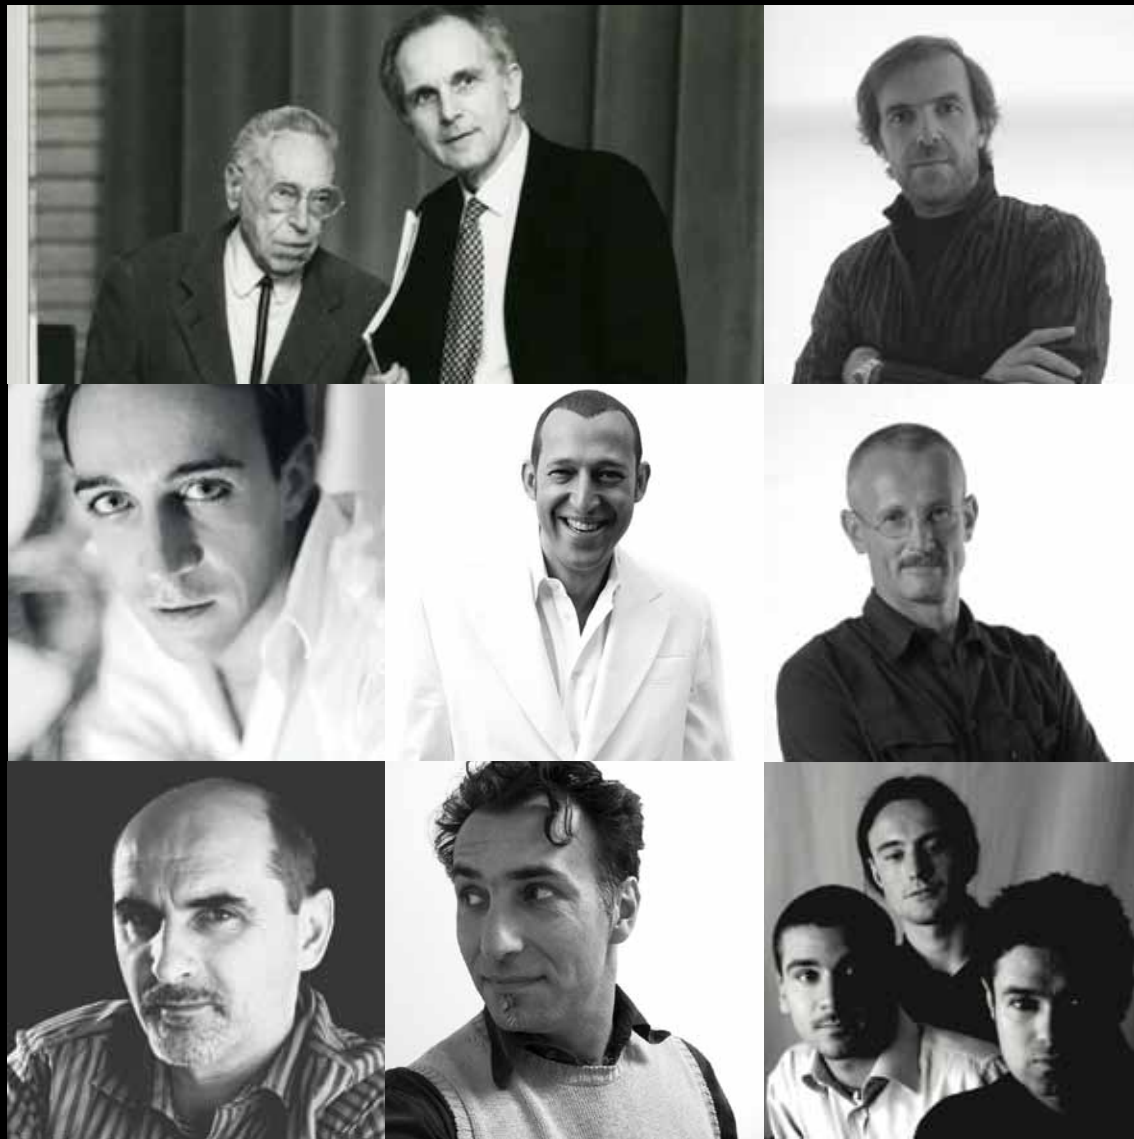

AB

ANTICATO BRONZATO.
ANTIQUÉ BRONZE.

Anticato bronzato con vernicatura opaca.

Antique bronze matt lacquered.
